About Tanenholz & Marr:

Tanenholz & Marr differentiates itself from other discovery providers by offering **complete legal review services**, including hands-on supervision of the legal work performed by its discovery attorneys. This approach allows partner trial counsel firms to focus their energies on substantive aspects of litigation without managing the day-to-day review process.

As a discovery law firm, Tanenholz & Marr delivers **predictable pricing, transparent processes, and fully defensible legal review**, ensuring clients receive the greatest value possible in document review. The firm's integrated model eliminates inefficiencies that often arise in vendor-law firm partnerships, resulting in superior outcomes and cost savings for clients.
